

Bhavy Ladani

8780822212 | bhavy.ladani6701@gmail.com | Ahmedabad, Gujarat

Experience

Software Developer | 08/2022 - Present | Webocult Technologies | Ahmedabad , Gujarat

- Worked on a complete hospitality management system that handles the operation of the restaurants and the customer overall under one system including its design and development.
- Worked on projects with complete dynamic authentication-based routing and real-time updates using socket services.
- Worked and integrated various libraries in projects like Taiga UI, Daisy UI, Material UI, Bootstrap, Tailwind, etc. to make projects robust, and smooth across platforms.
- Proficient in Angular development, with hands-on experience spanning multiple versions, from Angular 11 to the latest Angular 17.
- Collaborated closely with cross-functional teams, including designers and backend developers, to translate design mockups into responsive and user-friendly interfaces.

Software Engineer Intern | 05/2022 - 07/2022 | Codeflash Infotech | Ahmedabad, Gujarat

- Contributed to the development of web applications, showcasing proficiency in HTML, CSS, jQuery, JavaScript, and React.
- Worked with designing UI and translated design concepts into code, ensuring seamless integration and user-centric design principles.

Projects

Eatcard - Restaurant Management System

- A complete hospitality management system having more than 8 different types of systems to cater to restaurants for different use cases.
- Created 2 projects from scratch with the team where we made a platform where users can place orders or create reservations for present or future dates.
- Strategically reduced the number of API calls required for search functionality, enhancing overall performance.
- Intensive Unit Testing and Debugging across projects, in teamwork with designated QA to ensure robust and error-free systems.

Socket Monitoring System

- Designed and implemented a user-friendly interface to visualize socket connections and network traffic patterns.
- Developed functionalities to track and manage socket activities, enabling real-time monitoring and analysis of data transmission.
- Integrated multiple projects under one system with user authentication all in one system.

Skills

Angular, ReactJS, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, JQuery, Responsive Web Design, Git, Tailwind

Education

B.Tech Computer Engineering | Gujarat Technological University Ahmedabad | 06/2023 | Rajkot, Gujarat

CGPA: 8.54
